3. Certificate of Appropriateness for Bus. Lic. Relocation-190 N. Lee St. -

Certificate of Appropriateness for the Business License relocation application for an Automotive Detail/Antiques Shop located at 190 N. Lee St. (Tax Parcel K15 10 005) in the C-1 (Central Business District).

Charles Bolan has applied for a business license relocation in the name of "Coastal Expert Detailing". The location of the business is at 190 N. Lee St. located in the C-1 Central Business District. The Central Business District is an area of the city that the Kingsland D. D. A. sets strategic economic goals and visions for the downtown area. The D. D. A. recommends that the business license relocation not be approved because it does not meet the boards visions and goals and is not suitable for the downtown area and that a car wash is not an allowed use in the C-1 Business District. However, an Antique Shop is an allowable use. Mr. Bolan has stated that the auto detail shop will include hand washing, vacuuming, waxing, and ceramic coating of automobiles.

The C-1 Ordinance does include the following as its intent of the district - "1.1.2. Required conditions. All business, display, servicing, storage or processing shall be conducted within a completely enclosed building except where the nature of the activity makes it impossible, as for example, off-street loading, and automobile parking for customers while on the premises. Uses, processes or equipment employed shall be limited to those which are not objectionable by reason of odor, dust, bright lights, smoke, noise or vibration.

Staff Recommendation: *It is in the staff's opinion that an automotive detail shop does not meet the same definition as a car wash and that Mr. Bolan's business does meet the intent of the C-1 District. Staff recommends approval of the Certificate of Appropriateness for the business license relocation with the following conditions that Mr. Bolan has agreed to:

- 1) All activities will take place inside of the enclosed building and bay door area.
- 2) All excess water from car washing activities shall be diverted to the drain and catch basin that is located inside the work bay.
- 3) There shall be no extended parking or storage of any type vehicle on the premises.
- 4) The building will not be used as a place of residence for anyone.
4. Ordinance Amendment-Article VII.-Coin Operated Amusement Machines -

Ordinance 2021-01 to Amend Chapter 11 of the Code of Ordinances by adding a new Article to be known as - ARTICLE VII.-COIN OPERATED AMUSEMENT MACHINES.

In the interest of Public Safety and the immediate enactment of this ordinance, the amendment will prevent the unregulated operation of the bona fide coin operated amusement business and where the business can be conducted in a manner to safeguard the fiscal soundness of the City and provide business revenue to enhance the public welfare of the citizens of Kingsland. Staff recommends approval.

5. Ordinance Amendment-Article VII., Sec. 70 of KLADO -

We will be using a drop-shipper (InventorySource), to manage, process and store inventory. Our part is to basically market items for a retail agent on our eCommerce site (BigCommerce). We make less doing it this way, but we have the ability to adjust cost for items, items and the best part is we have no overhead. The only things we really have to do is follow the products through competitors to make sure we're offering the best pricing or deals by bundling items and ensuring our taxes (for GA) are being paid. Fortunately, these two companies integrate with QuickBooks seamlessly. InventorySource also calculates and taxes from other states and shipping costs for our customers outside of GA.

I can send you some materials on these companies if you'd like to read more.

ATTEST: _____
Jean Seigler, City Clerk

Sec. 70. - Minimum lot area, lot width, required yards, maximum building height and maximum lot coverage.

Within each district the following minimum lot areas, minimum lot widths, minimum yard requirements, maximum height requirements, and maximum lot coverage shall apply unless otherwise specified in this Ordinance.

70.1 Residential Districts.

70.1.1 R-1 Single Family Residential

1. Minimum lot area: 10,000 square feet
- (2) Minimum lot width at the building line: 75 feet
- (3) Minimum front yard setback from the public right-of-way: 25 feet
- (4) Minimum side yard setbacks:
 - (a) From public right-of-way: 25 feet
 - (b) From any other property line: 10 feet
- (5) Minimum rear yard setbacks
 - (a) From public right-of-way: 25 feet
 - (b) From any other property line: 15 feet
- (6) Maximum building height: 35 feet
- (7) Maximum Lot Coverage: 35%

70.1.2 R-2 Low Density Residential

- (1) Minimum lot area:
 - (a) Single-family dwellings: 10,000 square feet
 - (b) Two and three family dwellings: 4,000 square feet per dwelling unit
 - (c) Townhouses: 10,000 square feet for the first three units, plus 4,000 square feet for each additional unit
 - (i) Minimum lot width at building line: 70 feet
 - (ii) Minimum front yard setback from the public right-of-way: 25 feet
 - (iii) Minimum side yard setbacks:
 1. From public right-of-way: 25 feet
 2. From any other property line: 10 feet
 - (iv) Minimum rear yard setback from other property line: 15 feet
 - (v) Maximum percentage of lot coverage: 35 percent
 - (vi) Maximum building height: 35 feet

Commented [SB1]: I have tried to make the formatting more consistent across all sections of this ordinance.

Commented [SB2]: There is a lack of uniformity among the sections of this ordinance in terms of how they phrase the front yard setback requirement. This section refers to as a setback "from street." In contrast, section 70.1.2 refers to the setback as measured "from property line." And other sections (e.g., 70.2.2) refer to a setback "from public right-of-way." I suggest that the wording of all of the front yard setbacks be made uniform. Thus, I have suggested in this document that all of the front yard setbacks be revised to state that they are measured from the "public right-of-way." I assume that is consistent with the intent of each section.

Commented [SB3]: If you're going to be amending this ordinance, that I would recommend cleaning this section while you are at it. As it is currently written, this portion is ambiguous. I have tried to make it clearer as to what I assume that it was meant to convey.

- (vii) Minimum dwelling unit size (heated area):
 1. Single-family dwellings: None
 2. Two and three family dwellings: 800 square feet per unit
 3. Townhouses: None

70.1.3 R-3, Medium and High Density Multi-Family Residential District

- (1) Minimum lot area:
 - (a) Two and three family dwellings: 4,000 square feet per unit.
 - (b) Multi-family dwellings of more than three units:
 - 10,000 square feet for the first two units; plus 2,000 square feet for each additional unit.
- (2) Minimum lot width at building line:
 - (a) Condominium and Apartment Developments: 80 feet
 - (b) Townhouses: 70 feet
- (3) Minimum front yard setback from the public right-of-way: 30 feet
- (4) Minimum side yard setbacks:
 - (a) Apartments/ condominiums:
 - (i) From a public right-of-way: 25 feet
 - (ii) From property line abutting an adjacent property zoned as a Residential District: 25 feet
 - (iii) From any other property line: 15 feet
 - (b) Townhouses:
 - (i) From a public right-of-way: 25 feet
 - (ii) From any other property line: 15 feet
- (5) Minimum rear yard setbacks:
 - (i) From a public right-of-way: 30 feet
 - (ii) From property line abutting an adjacent property zoned as a Residential District: 25 feet

- (7) Maximum building height: 45 feet or 3 stories

Commented [SB4]: I thought it might be clearer to bring out these requirements in separate subsections.

(b) Multi-family dwelling of more than three units. Five square feet per unit for the first six (6) units, after five (5) square feet per unit for each additional unit.

Commented [SB5]: I assume that these are supposed to be per unit requirements, so I would include "per unit" stating the number of feet. Also, if it is supposed to be 6 ft.² per unit for every unit above six, then the last portion of this subsection is unnecessary.

701.4. R-1 Single-Family Mobile Home District

- (1) Minimum lot area: 7,500 square feet
- (2) Minimum lot width at the building line: 50 feet
- (3) Minimum front yard setback from the public right-of-way: 25 feet
- (4) Minimum side yard setbacks:
 - (a) From a public right-of-way: 25 feet
 - (b) From any other property line: 10 feet
- (5) Minimum rear yard setbacks:
 - (a) From a public right-of-way: 25 feet
 - (b) From any other property line: 15 feet
- (6) Maximum percentage of lot coverage: 30%
- (7) Maximum building height: 20 feet

701.5 R-5, Mobile Home Park District

- (1) Minimum lot area: Five (5) acres
- (2) Maximum density: Seven (7) mobile homes per acre
- (3) Minimum space area: Each mobile home shall be located on a lot or space having an area of at least 4,000 square feet
- (4) Mobile Home Placement and Separation: The minimum distances required for the separation of a mobile home shall be:
 - (a) 20 feet from side to side
 - (b) 20 feet from side to rear
 - (c) 15 feet from rear to rear
 - (d) Individual driveways for each mobile home shall be at least 15 feet from adjacent driveways.

Commented [SB6]: Again, just trying to keep format consistent throughout the ordinance.

(5) No mobile home shall be located closer than 30 feet from street right-of-way lines or closer than 20 feet from any property line. Notwithstanding the foregoing, any mobile home located at a sales center on Highway 40 E. shall be placed at least 25 feet from the front property line.

Commented [SB7]: I think that the phrase "interior driveways" may be vague and ambiguous. Within a mobile home park, I assume that it would be possible to have a small driveway in front of each individual mobile home. The intent of this ordinance to require that every mobile home with a driveway be placed 15 feet away from the driveway? My hunch is that this subsection was intended to apply to ingress/egress routes through a mobile home park that all of the mobile home owners use to access their respective homes. If that is the case, we may want to reword this.

701.6 R-8 Single-Family Large Tract Residential District

- (1) Minimum lot area: 1.5 Acres
- (2) Minimum lot width at the building line: 100 feet

(3) Minimum front yard setback from the public right-of-way: 30 feet

(4) Minimum side yard setbacks:

- (a) From a public right-of-way: 25 feet

(5) Minimum rear yard setbacks:

- (a) From a public right-of-way: 25 feet
- (b) From any other property line: 20 feet

(6) Maximum building height: 35 feet

(7) Maximum percentage of lot coverage: 40 percent

(8) Minimum subdivision size: 100 Acres

Commented [588]: Should these numbers for minimum rear yard setbacks be reversed? It appears that for all zoning classifications, the setbacks from streets are greater than the setbacks from other property lines.

70.1.7 R-7 Townhouse Residential District

(1) Minimum lot area: 1600 square feet

(2) Minimum lot width at the building line: 18 feet

(3) Minimum front yard setback from the public right-of-way: 15 feet

- (b) From any other property line: 20 feet

- (7) Maximum percentage of lot coverage by buildings: 35%.
- (8) Minimum Sidewalk width along street frontage: 5 feet.

Comment (SR11): In its current form, this section does not impose any rear yard setbacks from streets. I have added any rear yard street setback to this section since I assume there may be some reason for that omission. Commented [SB12]: In its current form, this section did not impose any rear yard setbacks from streets. However, you may want to give some consideration as to whether that should be added.

- (b) From any other property line, including a property line abutting a public right-of-way: 25 feet

(8) Minimum rear yard setbacks:

- (a) From a property line abutting another property zoned C-ED: 0 feet
- (b) From any other property line, including a public right-of-way: 25 feet

(7) Maximum building height: 50 feet, unless approved by the Fire Chief. However, no building height shall exceed the distance from said building to the adjacent zoning district boundary

Commented [SB15]: I have reworded this to make it clearer. However, I am a little concerned that this provides no standard by which the Fire Chief is supposed to make this determination.

(8) Maximum percentage of lot coverage by buildings: 35%

(9) Minimum district buffer: A full year-round visual buffer shall separate all developed parts of the district from surrounding residential zones. The buffer may be a fence or vegetated berm with a vertical visual buffering of at least 20 feet and be at least 25 feet wide, or a vegetative only buffer of at least 15 feet height and 50 feet wide.

(6) Minimum rear yard setbacks:

- (a) From a property line abutting another property zoned C-PLMU: 0 feet
- (b) From a property line abutting a property zoned as a Residential District: 25 feet

(7) Maximum building height: 50 feet, unless approved by the Fire Chief. However, no building height shall exceed the distance from said building to the adjacent zoning district boundary

Commented [SB16]: Again, I would avoid this "existing residential uses" language. I think it's ambiguous whether that means that the abutting property is simply zoned residential or whether it means that the abutting property actually has a residential structure on it. If the abutting property is zoned residential but currently vacant, then it may be unclear whether there is an "existing residential use" on the property.

Commented [5817]: As currently written, this section only contains side yard setbacks from streets and proper lines "of similar usage" (which I am assuming means another MU property. That means there are no MU side yard setbacks from other types of properties. Not sure if this is an oversight.

Commented [5818]: As written, this section has rear setback requirements with respect to adjacent streets, residential properties, and "similar commercial uses." You may want to add an additional catch-all for any other type of adjacent properties. Otherwise, if an adjacent property does not fall into one of those categories, then there would be no setback requirement.

Commented [5819]: Again, I would avoid this "existing residential uses" language. I think it's ambiguous whether that means that the abutting property is simply zoned residential or whether it means that the abutting property actually has a residential structure on it. If the abutting property is zoned residential but currently vacant, then it may be unclear whether there is an "existing residential use" on the property.

Commented [5820]: I would clarify what is meant by "similar commercial uses" by specifying particular zoning classifications. I assume that another property zoned MU would certainly qualify as a similar use, so I have changed to state that this setback requirement applies to a property line abutting another property with that zoning classification. But you may want to broaden that to include any other commercial zoning classifications.
